

PREK-12 PUBLIC EDUCATION *Fiscal Crisis*

November 2025

November 18, 2025

Dear Governor Healey and members of the Legislature,

We, the undersigned, write to you on behalf of the thousands of students, educators and community members who we collectively represent. We are writing to demand decisive state action in the FY2027 budget and using available Fair Share surplus funds to address the fiscal crisis facing our public school districts.

It is increasingly clear that public schools across our state are facing significant fiscal challenges caused by severe flaws in our school funding policies that are rapidly undermining our students' constitutional right to a high-quality and fully funded public education. Funding from all sources has not kept pace with growing demands for programs, services and staffing to adequately meet students' academic, social-emotional and mental health needs. Federal ESSER funds have been spent and actions in Washington threaten our budgets. Proposition 2½ has stalled many communities' ability to raise revenues locally, and state aid under Chapter 70, while increasing overall thanks to the Student Opportunity Act, has proven inadequate for a majority of school districts for a variety of structural reasons. The result has been devastating cuts to programs and staff that are touching classrooms throughout Massachusetts. This must be addressed.

We cannot accept this situation as an unavoidable reality that our students, educators and local communities must navigate on their own, even in light of a difficult fiscal environment. Given the Commonwealth's proud tradition of supporting public education and an understanding of solutions that can begin to address the fiscal challenges facing our schools, we believe that you can take steps at the state level to solve this crisis. It is essential that you act with urgency and in ways that deliver resources to school districts of all types – from Gateway cities and minimum aid communities to rural and regional schools.

Specifically, we urge you to focus on advancing the following priorities that would provide relief to the school districts we collectively represent:

- Strengthening the Special Education Circuit Breaker Program.
- Fixing the Chapter 70 inflation cap.
- Fully reimbursing regional and non-regional school districts for student transportation costs.
- Significantly increasing rural school aid.
- Further mitigating the financial impact of charter schools on traditional public schools.
- Making targeted investments in the staffing and programs needed to best support student mental health.

While addressing these issues would not solve the entirety of the fiscal challenges in public education, doing so would bring urgently needed resources to Massachusetts districts. We are counting on you to take meaningful steps in the coming months to deliver the funds that we need to succeed and that adequately reflect the Commonwealth's historical commitment to public education.

Thank you for your consideration.
